

The webinar will provide an overview of imaging tests that detect breast cancer. Discussion will be focused on mammography (2D vs 3D), ultrasound and MRI. Other less common imaging tests will be briefly discussed. Join the BCEA on this webinar for answers to these and other important questions on breast imaging.

Featured Speaker:

Dr. Trisha Prescott, MD is a board certified diagnostic radiologist who specializes in breast imaging. She received her medical degree from the University of Minnesota in 2007. She then went on to complete a diagnostic radiology residency and subsequent breast imaging fellowship at the University of Minnesota. Dr. Prescott has been practicing as a breast imaging specialist with St. Paul Radiology since 2013. In 2018 and 2019 she was recognized in Mpls/St Paul magazine "Top Doctors Rising Stars" edition.
